MEDICAL GROUP

Welcome to Imperial Health Holdings Medical Group

Imperial Health Holdings Medical Group was founded in 2013, by Dr. Paveljit Bindra, CEO, who is an Internal Medicine, Cardiovascular Disease and Electrophysiologist and Meeta Bindra, CPA, MBA, who is the Chief Financial Officer of the organization.

Dr. Bindra has extensive experience in population health management, health maintenance and health care administration and has served as Chief Medical Officer and Chief Information Officer, of a 3-hospital, 625+ bed acute care health facility, with affiliated home health and hospice systems. His direct leadership of the executive team, is responsible for the financial turnaround of \$28 million.

Dr. Bindra's management and clinical expertise in the health care sector, partnered by a spirit of entrepreneurship, led to the development and establishment of **Imperial Health Holdings Medical Group**, Imperial Health Plan of California, Imperial Insurance Companies (TX, AZ, NV), Imperial Management Services Group (IMAS), HealthCosmos Medical Group (AZ) and Lone Star Medical Group (TX).

Mission:

Imperial Health's mission is to Deliver valuable care, so our members are healthy in body, mind, and spirit, to achieve their inherent potential.

Vision:

The Imperial Vision is to Deliver value-based care, that is clinically effective, sustainable, and achieves exceptional outcomes for our patients.

Medi-Cal Managed Care Program Training:

1. Member Rights and Member Services Information
2. Evidence Based Practice Guidelines
3. Clinical Protocols
4. Cultural Awareness & Sensitivity as developed by DHCS, for Seniors and Persons with Disabilities and chronic conditions.
5. Information Sharing Methods for Contracted and Non-Contracted Providers and Members, encompassing Clinical Protocols and Evidence-based Practice Guidelines
6. Access to Policies and Procedures (P&Ps)
7. Trainings: Compliance/Standards of Conduct & Fraud Waste and Abuse
8. Provider Manual

Member Rights

- Member must be treated with respect, giving due consideration to the Member's right to privacy and the need to maintain the confidentiality of the Member's medical information.
- Member will be provided with information about the plan and its services, including Covered Services.
- Member will be able to choose a Primary Care Provider within the Imperial Health Holdings Medical Group's Network.
- Member will be allowed to participate in decision-making regarding their health care, including the right to refuse treatment.
- To voice Grievances, either verbally or in writing, about the organization or the care received.
- To formulate advance directives.
- Member will be allowed to have access to family planning services, Federally Qualified Health Centers, American Indian Health Service Programs, sexually transmitted disease services, and Emergency Services outside the Contractor's Network pursuant to the federal law.

Member Services

Contact Imperial Health Holdings Medical Group's Member Services Department for assistance:

Member Services Tel: 1-626-838-5100 ext. 2

Member Services Fax: 1-626-380-9129

Members can access IHHMG's
Medi-Cal Program Resources and
Information
on our website at:

<https://imperialhealthholdings.com/resources>

Available Resources:

- Senior and Persons with Disabilities (SPD),
- Awareness and Sensitivity Training & Cultural & Linguistics
- Member Policies and Procedures

• Provides necessary support to Members with chronic conditions (such as asthma, diabetes, congestive heart failure) and disabilities, including assisting Members with Grievance and Appeal resolution, access barriers and disability issues, and referral to appropriate clinical services staff. • Refer Potential Enrollees to the DHCS enrollment broker, Health Care Options (HCO), when Potential Enrollees make a request for enrollment with the Contractor.

Utilization Management Resources

Imperial will notify providers through Fax Blast and post on the IHHMG Provider website including but not limited to the below, located here: <https://imperialhealthholdings.com/resources>

- Access to Policies and Procedures (P&Ps) that cover (but are not limited to) the following:
- Services (e.g., Provider Education, Panel Status Changes, etc.)
- Policies (e.g., Prior Authorization, Pre-Natal Services, Member Satisfaction, etc.)
- Procedures (e.g., DHCS Recommended Care Standards, Continuity of Care, Special Needs Plan (SNP), etc.)
- Any modifications to existing services, policies and/or procedures.

Upon Request

- Members are notified of these changes through member newsletter. Members can find resources on the website.
- Providers are notified of these changes through Fax Blast. They can request by calling Provider Department: (626) 838-5100 Prompt 5

Clinical Protocols

Access to Clinical Evidence Based Guidelines & Protocols:

Providers can access our **Clinical Evidenced Based Guidelines and Protocols** on our Imperial's website.

DHCS Medi-Cal Programs

Medi-Cal Enrollment Process

- People who meet Medi-Cal eligibility requirements (Mandatory Enrollment and Voluntary Enrollment Aid Categories)
- Health Care Options (HCO) is the organization that works with DHCS to manage the enrollment process. HCO helps people understand Medi-Cal benefits and the different managed care options available to them.
- Potential enrollees can call HCO Medi-Cal Managed Care toll-free at 1-800-430-4263 (TTY 1-800-430-7077) or HCO Coordinated Care Initiative toll-free at 1-844-580-7272 (TTY 1-800-430-7077) Monday through Friday, 8 a.m. to 6 p.m. PT, except holidays.
- If you want HCO to contact you, fill out the [HCO Contact Form](#)
- You can write to HCO at
CA Department of Health Care Services
Health Care Options
P.O. Box 989009
West Sacramento, CA 95798-9850
- To learn how to contact other DHCS Organizations, go to the [Contact us](#) page
- For additional information on HCO, go to: <https://www.healthcareoptions.dhcs.ca.gov/learn>

Child Health and Disability Prevention Program

California Department of Health Care Services (DHCS)

➤ CHDP Program:

- ✓ <https://www.dhcs.ca.gov/services/chdp>
- ✓ **Child Health and Disability Prevention Program (CHDP)** is a preventive program that delivers periodic health assessments and services to low income children and youth in California. CHDP provides care coordination to assist families with medical appointment scheduling, transportation, and access to diagnostic and treatment services. Health assessments are provided by enrolled private physicians, local health departments, community clinics, managed care plans, and some local school districts.

Program Description

The CHDP program provides complete health assessments for the early detection and prevention of disease and disabilities for low-income children and youth. A health assessment consists of a health history, physical examination, developmental assessment, nutritional assessment, dental assessment, vision and hearing tests, a tuberculin test, laboratory tests, immunizations, health education/anticipatory guidance, and referral for any needed diagnosis and treatment.

The CHDP program oversees the screening and follow-up components of the federally mandated Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program for Medi-Cal eligible children and youth.

In July 2003, the CHDP program began using the "CHDP Gateway," an automated pre-enrollment process for non Medi-Cal, uninsured children. The CHDP Gateway serves as the entry point for these children to enroll in ongoing health care coverage through Medi-Cal. The CHDP Gateway is based on federal law found in Titles XIX and XXI of the Social Security Act that allows states to establish presumptive eligibility programs for children/youth.

CHDP Gateway PE coverage is full scope, and includes abortion services.

California Children's Services (CCS)

California Department of Health Care Services (DHCS)

➤ CCS Program:

✓ <https://www.dhcs.ca.gov/services/ccs/Pages/default.aspx>

California Children's Services (CCS) is a county-wide program that treats children (*under* 21 years of age) with certain physical limitations and chronic health conditions or diseases.

- **CCS** can authorize and pay for specific medical services and equipment provided by **CCS** approved specialists and hospitals.
- The **California Department of Health Care Services (DHCS)** manages the **CCS program** and it is administered as a partnership between county health departments and the **DHCS**.
- **CCS** is the “payor of last resort”. That means: if you have private insurance coverage, the insurer is responsible for paying for the services before **CCS** can pay.
- Providers are expected to refer a child to **CCS** if there is sufficient clinical detail to establish, or raise a reasonable suspicion, that a member has a **CCS** eligible medical condition.

Examples of Qualifying CCS Conditions

- Infectious Diseases
- Neoplasms
- Endocrine, Nutritional, Metabolic and Immune Disorders
- Mental Disorders and Mental Retardation
- Diseases of the Nervous System
- Medical Therapy Program
- Diseases of the Eye
- Diseases of the Ear and Mastoid Process
- Diseases of the Respiratory System
- Diseases of the Digestive System
- Diseases of the Genitourinary System
- Diseases of the Skin and Subcutaneous Tissues
- Diseases of the Musculoskeletal System and Connective Tissues
- Diseases of the Circulatory System
- Congenital Anomalies
- Accidents, Poisonings, Violence and Immunization Reactions

CCS Referral Process

- Referrals to CCS can be made by anyone:
 - Hospital
 - Physician
 - School Nurse
 - Family

- Referrals are sent to the appropriate county office where the child resides.

CCS Information Brochure

Caring for Children with Special Medical Needs

English [dhcs.ca.gov/formsandpubs/publications/Documents/CMS/pub4.pdf](https://www.dhcs.ca.gov/formsandpubs/publications/Documents/CMS/pub4.pdf)

Spanish <https://www.dhcs.ca.gov/formsandpubs/publications/Documents/CMS/pub135Spanish.pdf>

What is a Service Authorization Request (SAR)?

- A SAR allows CCS to authorize payment for services for a child's CCS-eligible condition. This may include doctors, hospitals, Special Care Center (SCC) services, medication, or medical equipment and supplies.
- It may take 1-2 weeks to receive the SAR letter in the mail, after your Nurse Case Manager approves it.

CCS Carved Out Services

- The CCS eligible medical condition is “carved out” of Medi-Cal Managed care plans responsibility.
- The “carve out” means that Medi-Cal Managed Care plans are not capitated to provide services for a child’s CCS eligible condition.

What are CCS Benefits?

If member has a special health problem that is a CCS covered benefit, then CCS will pay or assist if eligible with the following

- Doctor visits and care, hospital stay, surgery, physical therapy, occupational therapy, laboratory tests, X-rays, pharmaceuticals, medical equipment and supplies.
- Medical Case Management may assist members in finding a special doctor and/or refer to other agencies for example, public health nursing and regional centers.
- Medical Therapy Program (MTP), which provides physical therapy and/or occupational therapy in public schools.

Examples of CCS-Eligible Covered Services

- Diagnostic Services

- Treatment Services
 - Doctor visits, Emergency Room Care, Hospital Stays, Surgery, Medication, Special Equipment, Medical Therapy Program

- Special Care Centers (SCC)
 - A SCC is a clinic where a team of doctors and other professionals (like nurses, therapists, and social workers) work together with families to help provide treatment for the child.

CCS Qualification Cessation

CCS services may end when:

- A child no longer has a CCS-eligible condition because the condition has changed or treatment has been completed
- A child is no longer financially eligible because the family's income has changed
- A child turns 21 years old
- A child moves outside the state of California

Agenda

- **Objectives**
- **Overview**
- **Understanding Cultural Differences**
- **What is Cultural Competence?**
- **The strength of cultural competency and diversity**
- **Cultural Competence Continuum**
- **Communication with Culturally Diverse Patients**

Objectives

This presentation demonstrates cultural competency strategies that can be used in providing culturally competent health services to our diverse populations and their needs.

We will highlight the importance of developing and demonstrating culturally appropriate behaviors that include but not limited to, knowledge, attitudes, and beliefs for our members, staff, and providers.

IMPERIAL HEALTH HOLDINGS
MEDICAL GROUP

IMPERIAL HEALTH HOLDINGS
MEDICAL GROUP

What is Diversity?

Diversity includes characteristics such as gender, religion, nationality, race, sexual orientation, physical abilities, ethnicity and political beliefs, heritage and life experiences.

Individuals can bring a diverse range of experiences, e.g., appearance, likes or dislikes and identity. It is important we value and embrace differences and similarities among staff, patients and health care providers.

Importance of Healthcare Diversity

Diversity in health care helps ensure all backgrounds, beliefs, ethnicities, and perspectives are adequately represented in the medical field. It's about providing the best possible care for all patients. Having Diversity in the workplace is beneficial for healthcare providers, staff and patients. These benefits include but not limited to:

Ability to provide better care for our diverse population

- Having a diverse staffing structure, patients can identify with the staff, comfortably communicate with their provider and staff, better serve their individual needs.

Higher employee morale

- Diversity creates a stronger feeling of inclusion as a community for healthcare workers, which makes the workplace feel safer and more enjoyable.

Better patient experience and outcomes

- Patients benefit from a team that understands and relates to them. Diverse team gets better results. It is important we can understand our patient's belief systems and values. This will allow for providers to provide better care for them.

Importance of Cultural Diversity

- More than 40 million people living in the U.S. were born in another country, accounting for about one-fifth of the world's migrants. The population of immigrants is also very diverse, with just about every country in the world represented among U.S. immigrants.
- Seniors and Persons with Disabilities are often referred to as an individual population, but they are actually group of people with a various range of needs.
- 1 in 4 adults in the United States have some type of disability
- People with disabilities constitute the nation's largest minority group
- People with disabilities constitute the largest minority group in the United States, making up an estimated 20 percent of the total population. It is a diverse group, crossing lines of age, ethnicity, gender, race, sexual orientation and socioeconomic status.
- More than half of LGBTQI+ adults reported that “recent debates about state laws restricting the rights of LGBTQI+ people” moderately or significantly affected their mental health or made them feel less safe, including more than 8 in 10 transgender or nonbinary individuals.
- Approximately 1 in 3 LGBTQI+ adults reported encountering at least one kind of negative experience or form of mistreatment when interacting with a mental health professional in the past year, including 4 in 10 LGBTQI+ people of color and more than 1 in 2 transgender or nonbinary individuals.

IMPERIAL HEALTH HOLDINGS
MEDICAL GROUP

IMPERIAL HEALTH HOLDINGS
MEDICAL GROUP

Cultural Respect

Cultural respect is being respectful of and responsive to the health beliefs, practices, and cultural and linguistic needs of diverse patients.

Cultural respect is critical to reducing health disparities. It helps improve access to high-quality health care that is respectful of and responsive to the needs of diverse patients.

Cultural respect enables systems, providers, and groups of professionals to function effectively to understand the needs of groups accessing health information and health care.

The National Standards for Culturally and Linguistically Appropriate Services (NCLAS) Standards are a set of 15 action steps intended to advance health equity, improve quality, and help eliminate health care disparities, thereby influencing cultural respect as a critical element to achieving better health outcomes, implementing culturally and linguistically appropriate services.

IMPERIAL HEALTH HOLDINGS
MEDICAL GROUP

Importance of Cultural Respect

Culture is often described as the combination of knowledge, belief, and behavior. It involves several elements that are often specific to ethnic, racial religious, geographic, or social groups.

This includes personal identification, language, thoughts, communications, actions, customs, beliefs, values, and institutions. As healthcare providers, it is important to recognize these elements that may influence patients' actions or inactions surrounding health, healing, wellness, illness, disease, and delivery of health services.

The concept of **Cultural Respect** has a positive effect on patient care delivery by enabling providers to deliver services that are respectful of and responsive to the health beliefs, practices, and cultural and linguistic needs of diverse patients.

Cultural Differences

Did you know?

- **Health beliefs:** In some cultures, people believe that talking about a possible poor health outcome will cause that outcome to occur.
- **Health customs:** In some cultures, family members play a large role in health care decision making.
- **Ethnic customs:** Differing roles of women and men in society may determine who makes decisions about accepting and following through with medical treatments.
- **Religious beliefs:** Religious faith and spiritual beliefs may affect health care-seeking behavior and people's willingness to accept specific treatments or behavior changes.
- **Dietary customs:** Disease-related dietary advice will be difficult to follow if it does not conform to the foods or cooking methods used by the patient.
- **Interpersonal customs:** Eye contact or physical touch will be expected in some cultures and inappropriate or offensive in others.

Cultural Competence

Cultural competence is a set of behaviors and attitudes that professionals use to:

- Show respect for another culture's values and identity
- Respect and value diversity and cultural differences in their patients
- Respect diversity and cultural differences in their workforce
- Learn to adjust to the culture of the family or community they are serving
- Work effectively in a sensitive and multicultural setting
- Establish Clear Communication
- Ask about potentially relevant traditions and customs
- Use respectful statements when discussing sensitive topics including cultural or religious customs

Cultural Competence Skills

Respecting differences
and beliefs

Being aware of and
learning to control your
own biases and how they
affect interactions with
others

Being aware of
institutional barriers that
prevent some families
from accessing resources

Being Sensitive to others
by appreciating cultural
differences

Cultural Education

- **Building strong multi cultural team relationships**
- **Advocating for individuals who are different from yourself**
- **Patient Preference for Traditional Treatment**
- **Religious Beliefs and Care Delivery**
- **Using effective communication skills across differences**
- **Intervening and providing resolution for cross cultural conflicts**
- **Being flexible**

Diversity includes LGBTQIA Members/Patients

LGBTQIA+ refers to lesbian, gay, bisexual, transgender, queer, intersex, asexual & all sexual & gender minority people.

IMPERIAL HEALTH HOLDINGS
MEDICAL GROUP

- **Lesbian or gay** is a sexual orientation that describes a person who is emotionally & sexually attracted to people of the same gender.
- **Bisexual** is a sexual orientation that describes a person who is emotionally & sexually attracted to people of the same gender & people of other genders.
- **Straight** (heterosexual) is a sexual orientation that describes a person who is emotionally & sexually attracted to people of a different gender.
- **Transgender** describes a person whose gender identity, gender expression or behavior & sex assigned at birth does not conform to typically associated behaviors based on traditional expectations; for example, a person assigned female sex at birth who identifies as a man; or a person assigned male sex at birth who identifies as a woman. Transgender can also include people with gender identities outside the girl/woman and boy/man gender binary structure; for example, people who are gender fluid or non-binary. Sometimes abbreviated as trans

Diversity includes LGBTQIA Members/Patients

- **Queer** is an umbrella term describing people who think of their sexual orientation or gender identity as outside of societal norms. Some people view the term queer as more fluid and inclusive than traditional categories for sexual orientation and gender identity. Although queer was historically used as a slur, it has been reclaimed by many as a term of empowerment. Nonetheless, some still find the term offensive
- **Intersex** describes a group of congenital conditions in which the reproductive organs, genitals &/or other sexual anatomy do not develop according to traditional expectations for females or males. Intersex can also be used as an identity term for someone with one of these conditions.
- **Asexual** describes a person who experiences little or no sexual attraction to others. Asexual people may still engage in sexual activity.

Assumptions

Do Not Make Assumptions!

- Unconscious biases are learned assumptions, beliefs, or attitudes that we aren't necessarily aware of. While bias is a normal part of human brain function, it can often reinforce stereotypes
- Assumptions from judgements we make based on a person's appearance, age, race, ethnicity, religion, sex, gender, language, weight and economic status often lead to misjudgments.
- We may decide we may not need to “**hear**” what people have to say because we have unconsciously decided that they have nothing to contribute based on our own biases about the person's appearance or situation.
- Our assumptions may affect our ability to communicate effectively with those who are different from us.

Labels

- Labelling is closely interlinked with stereotyping - it occurs when an individual or group are exposed to subjective views which lead to them being associated with or categorized according to the viewers own experiences and opinions. Those individuals being observed are then associated with certain behaviors.
- We may use labels or categories to describe others.
- Labels can be based on certain characteristics including but not limited to their clothing, looks, the way a person talks, or the groups to which he or she belongs.
- Grouping is a natural human inclination; however, people often make assumptions about groups of people they don't even know.

Stereotyping

Bias and Stereotypes affects how people perceive others who look, think, or behave differently.

- Stereotyping occurs when we use misinformation to judge everyone who belongs to a specific group.
 - o For example, if we are walking through a park late at night and encounter three senior citizens wearing fur coats and walking with canes, we may not feel as threatened as if we were met by three high school-aged boys wearing leather jackets. Why is this so? Because we have made a generalization in each case.
- Stereotypes also evolve out of fear of persons from minority groups.

How to Avoid Stereotyping

- Acknowledge the existence of your own preconceptions.
- Be critical of yourself. Don't take for granted any opinion that pops into your head.
- Work to understand how your preconceptions impact the way you view others.
- Know your labels and to whom you relegate them.
- Slow down and get more information.
- Listen carefully and don't interrupt

The Strengths of Cultural Competence and Diversity

- The ability to collaborate effectively with individuals from different culture to improve health care experiences and outcomes.
- Offers an environment of inclusion, that is supportive and collaborative and increases productivity and loyalty.
- Promotes equity to alleviate healthcare disparities and improve health care outcomes in these patient populations.
- Encourages interaction among diverse people to enrich the educational experience, promote personal growth and enhance the community.
- Fosters mutual respect, value differences and promotes cross cultural understanding.
- Prepares community members to live and work in a competitive global economy.

Cultural Competence Continuum

Cultural competence at the organizational and individual levels is an ongoing developmental process.

The following chart is designed to highlight selected characteristics that organizations may demonstrate along the stages of the cultural competence continuum.

Communication with Culturally Diverse Patients

When you work with culturally diverse populations:

- Learn culturally specific information.
- Know some words and phrases in the patient's language.
- Use trained interpreters who can interpret language as well as cultural cues.
- Limit the number of forms and other paperwork.

Do's of communicating with Limited-English Speakers

- Make your statements as specific as possible
- Identify members among your team who speak other languages who you know can assist with outreach when connecting with people who speak different languages.
- Let the person see your lips as you speak
- Be aware of your assumptions
- Don't rush – be patient
- Speak a little more slowly but not more loudly
- Repeat if necessary
- Be careful with your pronunciation
- Stick to the main points
- Avoid complicated medical jargon

Do's of communicating with Limited-English Speakers

- Emphasize key words
- Use simple sentence structure
- Keep pencil and paper handy and write key information down
- Use body language to illustrate what your words say
- Ask the person to write down any words you have difficulty understanding

REFERRALS

- ❖ PCPs to obtain an authorization when referring a patient for specialty services not listed on the Imperial Direct Access Form.
- ❖ Specific Specialty Physician Services are covered only if they are:
 - *a covered benefit, medically necessary and properly authorized.
- ❖ The authorization request should be initiated by
 - ❖ Primary Care Provider for the initial referral, or
 - ❖ Specialist for follow-up services with the same specialist.
 - ❖ If the patient requires a specialist-to-specialist referral, eg: Orthopedist to Neurologist, the specialist may refer the patient directly to the new specialist and communicate the referral to the Primary Care Physician.
 - ❖ For Specialist referrals outside of the initial Specialist scope of practice, the patient should be directed to their PCP. All servicing providers should be within the Imperial Provider Network.

IMPERIAL DIRECT ACCESS REFERRAL FORM

Direct Access Referral Form

Complete all sections of the form and give original to the member. No additional authorization is needed. Retain copy in patient records.

IMPERIAL EZ-NET PROVIDER PORTAL

The screenshot shows the login page for the Imperial EZ-Net Provider Portal. The browser address bar displays `portal.imperialhealthholdings.com/EZ-NET60/Login.aspx`. The page features the Imperial Health Holdings Medical Group logo and navigation buttons for Home, About us, and Contact us. The date and time are shown as Thursday, June 10, 2021 09:44:11 AM. A 'Welcome' section provides information about the portal's purpose and the organizations it serves: Imperial Health Holdings Medical Group (IHHMG), Imperial Health Plan of California (IHPC), Imperial Insurance Companies (IICTX), and Great States Health Administrators (GSHTX). A login form on the right includes fields for Username (containing 'CATHIE.MIXON') and Password (masked with dots), a 'Login >' button, and a link for 'Forgot Username/Password?'. Below the main content, there is a 'Header News Section' with a placeholder image, a 'Link' section with two links to the Imperial Health Holdings Website and Imperial Health Plan Website, and a 'Compatibility' section with a placeholder image and text stating 'EZ-NET now supports Internet Explorer versions 9, 10 and 11. Always check with your IT before upgrading Internet Explorer.'

CLAIMS

Please send claims for services provided to members assigned to Imperial Health Holdings Medical Group:

Mail Claims Routing:

PO Box 60075, Pasadena CA 91116

Via Clearinghouse: Office Ally

Payer Code: IHHMG

Claim Status:

- Via Imperial EZ-NET PORTAL
- Submission of a Clean Claim within industry standard timelines is not to exceed 90 calendar days.

Contracted and Non-Contracted Providers:

- Refer to the IHHMG Provider Manual for additional claims related provider resources:
<https://imperialhealthholdings.com/resources>

The image shows a standard Health Insurance Claim Form (UB-04) with a large, semi-transparent watermark reading "IMPERIAL HEALTH HOLDINGS" across the center. The form is titled "HEALTH INSURANCE CLAIM FORM" and includes various sections for patient and provider information, as well as a table for procedure codes. The form is partially filled out with red text and checkboxes.

PROVIDER DISPUTE RESOLUTION FORM

PROVIDER DISPUTE RESOLUTION REQUEST

INSTRUCTIONS

- Please complete the below form. Fields with an asterisk (*) are required.
- Be specific when completing the DESCRIPTION OF DISPUTE and EXPECTED OUTCOME.
- Provide additional information to support the description of the dispute. Do not include a copy of a claim that was previously processed.
- Multiple "LIKE" claims are for the same provider and dispute but different members and dates of service.
- For routine follow-up, please use the Claims Follow-Up Form instead of the Provider Dispute Resolution Form.
- Mail the completed form to: **IMPERIAL HEALTH PLAN OF CA**
P.O. Box 60874
Pasadena, CA 91116
